2021**

Dear Friends,

Greetings from the Veerni Project!

This quarter (October to December) went well as Covid-19 infection has also decreased in the country.

We are delighted that finally, all the Veerni girls have permission to come back to the Veerni institute after so many months of disrupted learning. The state government has allowed educational institutes to function again with full capacity. The classes from 6 to 12 have been started in the schools during this quarter. At the end of this quarter, concern over the new variant of Covid-19 has started again but we hope this will not be serious in coming months.

At Veerni, both the Veerni's centers; - the Veerni Institute and the Veerni Balika centre have started functioning with full capacity. The 110 girls have joined the Veerni again. In this quarter, we conducted all the school classes at the Veerni Institute, school teachers have been coming to the Veerni institute on daily basis and have been teaching classes from 6 to 12 at the Veerni building. All the other activities like extra tuition classes, sports activities, and computer classes are being organized on day to day basis. Veerni girls have been working hard on their studies and wanted to succeed in their annual exams.

The Veerni Institute is again full of life and filled with lots of positive voices of the Veerni girls. We are prioritizing our girls' social and emotional well-being. Games and fun activities are helping Veerni girls adapt to being back at the routine life of the Veerni Institute. The playing ground of the Veerni institute has filled with noise and laughter again which is very felicitous.

We also take this opportunity to inform our supporters that all Covid-19 protocols continue to be strictly observed in both the Veerni centres. We are also observing all guidelines issued by the government authorities in relation to Covid-19 from time to time.

In this edition of the newsletter, we bring you the news of the Veerni Project from the period of October 01st to December 31st, 2021.
